 **BraunAbility®**

BRAUNABILITY REMOTE

Quick guide for A-series

How to install the BraunAbility remote receiver

1. Choose placement, either *on* or *near* the pump module. Ensure that the **Teach-in button** on the receiver is easy to access. Mount the receiver in step 4.
2. Disconnect the standard hand held control. Connect the supplied adapter cable between the pump module and the standard hand held control.
3. Connect the adapter cable to the receiver.
4. Mount the receiver according to the illustration using the supplied adhesive pads. In some cases it might be necessary to drill (**5 mm**) and use the supplied clips.

Be careful. Check for obstructions to ensure free space before drilling.

5. Use the supplied cable tie to tidy up the excess cable.
